

THE FOG HOUSE

Re-establishing the Relationship
Between Architecture and Fog

Atmosphere
Uncertainty
Environmental Perception

KEY QUESTION

“What kinds of environmental
perception are lost when
architecture removes uncertainty
from space?”

Fog Moisture Sensory Experience

MOTIVATION

ISLE OF SKYE SCOTLAND

57.4 N
6.2 W

field note fragments

visibility / salt air / wet stone / cloud ceiling

"I am interested in places where weather is not an exception but a constant condition.

On the west coast of Scotland, fog, humidity and shifting weather shape everyday experience.

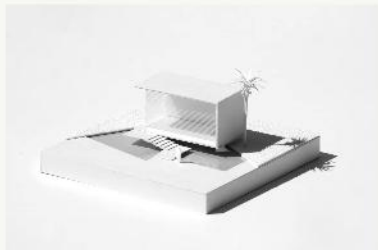

This project is motivated by the desire to design with these conditions, not against them."

METHODOLOGIES

record

sample

simulate

precedent

A process page for designing with unstable atmospheres: observe the weather condition, make it material, model its spatial effects, then test the boundary between enclosure and exposure.
